

CREATIVE, COLLABORATIVE AND VIDEO-BASED LEARNING IN SP4CE

*Anna Grabowska, Anna Czaja, Ewa Kozłowska
Gdansk University of Technology
PRO-MED sp. z o.o.*

What is all about

- SP4CE stands for Strategic Partnership for Creativity and Entrepreneurship project which has been funded with support from the European Commission under the ERASMUS+ Programme.
- The project has started on 1 September 2014.
- SP4CE will end on 31 August 2017.

The main purpose of the project

- Designing innovative common e-learning tools for collaboration between students, enterprises and teachers.
- It concentrates on identifying users' needs and supports the development of relations between them by mentoring and consulting activities.
- Those tools are available as ICT solution with WWW interface designed for three main target groups: Coaches, Mentors (Teachers) and Students.

The SP4CE portal is dedicated for companies and young people who want to enter the labour market and supports the following actions:

- Coaches from companies formulate and submit the problem.
- Students from different location chose problem(s), look for a solution and send a short proposal.
- Based on the proposed solutions mentors (teachers) are allocated to students and they assist the problem solving process within so called Learning Rooms.

To achieve a good collaboration

between all target groups there is a need to train them by using handbook and guidelines available online.

The handbook prepared for SP4CE users is titled “SP4CE pedagogical concept” and covers the following subjects:

- Results and lessons learned from already implemented projects;
- Collaborative learning for creativity and innovation;
- Online mentoring and coaching.

Final solution

- As a final ICT solution for the portal development WordPress and Moodle are proposed.
- In order to make familiar all target groups with the functionalities of the portal the video based training is offered.
- It should be stressed that experience gathered by authors during Moodle MOOCs courses (Moodle MOOC 7, Moodle MOOC 8, Teaching with Moodle, Moodle in Cloud) is implemented.

Video based learning in Moodle MOOCs

- Moodle for teachers
- Teaching with Moodle (Jan 2016)
- Moodle in SP4CE ERASMUS+
- Moodle in Cloud

The screenshot displays the Moodle for Teachers (M4T) website. The header includes the logo for 'Moodle for Teachers Integrating Technology' and navigation links for Home, How to Sign Up, and Login. The main content area features a dashboard with tabs for 'Help Desk', 'Overview and Syllabus', 'Presentation Tools', 'Badges for Each Week', and 'Sharing Ideas'. Below this, there are sections for 'Announcements (Respond Freely)' and 'You may reply and ask for clarifications'. A dropdown menu is open over the 'My Courses' link, listing various Moodle courses and resources. The right sidebar contains sections for 'LATEST NEWS', 'ACTIVITIES', and 'TABLE OF CONTENTS'.

Moodle Course Lessons MM8 Grabowska
What should be done

1. Topic of your lesson
2. Describe the lesson and suggest how it may be used.
3. Who is the audience (age group and level)
4. What are the learning outcomes
5. Describe each section.
6. Create a video tutorial for each section.
7. Reflect on the process of designing the lesson.
8. Submit the video to this discussion forum below and add the video to <https://padlet.com/nelliemuller/9j2mrdrou9ax>
